## **Pricing**

All photos are available as custom-made professional photographic prints for your home, office and such decoration.

## **Paper**

Prints are made on Epson professional photo paper, which is one of the highest-quality fine-art photographic papers today. In connection with Epson inks it exhibits superior sharpness and color, and is expected to last over 75 years on display before noticeable fading occurs. Means you can buy them and save as gifts for your grandkids even if you are in your twenties :-)

## ***Each image is released in a limited edition***

A limited edition is a series of prints in which each print is numbered. Limited editions usually go from just a few prints up to several thousand prints. My limited editions consist of 150 prints maximum. All photos are released in limited editions and the low number of prints makes each print a collectible work of art, meaning that your investment is highly collectible and will go up in price significantly within a few years. Each limited edition print is both hand-signed and hand-numbered on the print. The numbering I use is 1/150, 2/150, 3/150,.. until I reach 150 prints. When the complete edition has been issued the original image is retired and will never again be reproduced as a photographic print for sale.

## Information about the author

### **Ing. David Lacina, \*1977**

*Travel photographer and documentary journalist of indigenous cultures of the world.*

Born on 4<sup>th</sup> of September 1977 in Czech Republic, absolvent of Mendel University in Brno (master degree in Computer Science and Economics).

During past years, he's visited several exotic countries including Morocco, Malaysia and Langkawi Islands, Sumatra and Siberut Islands of Indonesia, Ghana and Caribbean island Curacao. Instead of visiting well-known places, David spends weeks of-the-beaten-track, living with local people far away from any civilization, learning about their culture and their preserved customs.

Several traveling magazines published his articles - including National Geographic and Czech biggest newspapers iDNES.
